Gehwol Fusskraft Bamboo Scrub

Comfort for Legs and Feet!

The combination of sugar and bamboo powder produces a peeling effect which acts on multiple levels: The coarser sugar grains initially remove the larger skin scales and quickly dissolve, while the fine bamboo granulate gently completes the peeling process. The nutrients leave the skin in a perfect silky condition!

With a balanced active substance combination, Gehwol Fusskraft Bamboo Scrub leaves the skin fresh and smooth while promoting circulation. Naturally active ingredients include: Vitamin E, to protect sensitive skin; Jojoba Wax, to supply the skin with nutrients and Avocado Oil to nourish the skin.

Fusskraft Herbal Bath

Softens calluses.

Effective against rough and brittle skin, foot perspiration, and foot odour.

The well-tried combination of active ingredients including essential oils from rosemary and lavender on a natural basis helps to alleviate a lot of foot problems.

Even persistent calluses, weals and corns are thoroughly softened. The herbal bath is excellently suitable for the treatment of rough and brittle skin (brittles, cracks and reddening). It has intensive cleansing and long-lasting deodorising properties. Excessive foot perspiration is normalised and unpleasant foot odour is eliminated.

Fusskraft Herbal Bath revitalises your feet. A long-lasting pleasant feeling of freshness remains after the bath. Regular use of Fusskraft Herbal Bath will give you healthy and supple feet.
